To the Lawrence Community ~

As the Lawrence Township Education Foundation (LTEF) celebrates its 15th anniversary, it is a very exciting time to be involved in public education in Lawrence. Our schools are striving to reach new heights and LTEF is glad to bring resources to that effort. With ever-tighter school budgets and increasing pressure for student achievement, the community needs to step in and demonstrate support for our local schools and educators. LTEF and its supporters have done just that! Last year, our volunteers raised more than \$165,000 and used that money to support programs that would not have been possible within the school budget. LTEF has also been the vehicle for local corporations and businesses to show their interest in maintaining quality educational programs in Lawrence. During the past fifteen years, LTEF has been a force for excellence in education—providing funds for innovative and exciting classroom programs, training teachers, and purchasing state-of-the-art teaching materials and equipment. It has been my pleasure to be part of an organization that works so hard on behalf of the children of Lawrence Township. I invite you to learn more about LTEF and become involved in its mission.
